

Jewelry Inspired by Doodles, Scrawls, and Squiggles

Source: December JCK Magazine

Design details beautifully this season with doodles, scrawls, and squiggles. We've seen all sorts of graffiti-inspired aesthetics on fabrics (Christopher Kane and Issa showed prints with undulating effects for spring 2015) and in jewels, via metallic loops and waves and gem-encrusted scribbles and swirls. Seeing straight is so overrated.
